International Line
Constructions LLC

We Build
Trust

Introduction

International Line Constructions, founded in 2005, has several years of experience partnering with our clients to provide value to projects of varying scope and complexity, including multi-unit residential projects, sports facilities, industrial structures, hotels and more. International Line Constructions resources and local presence provides support from schematic design through top-out of site-cast concrete structures, electromechanical services, interior decoration and fit out works. With International Line Constructions, contractors have a dependable partner that can provide a firm schedule at a known cost.

International Line Constructions is a client-driven company focused on project success. International Line Constructions' unwavering integrity, earned by honoring its commitments, supports its client's credibility with project owners.

Company Information

International Line Constructions Company operates under three divisions in various design and construction works mainly in structural concreting works, reinforcement bars installation, formwork & scaffolding installations, concreting, masonry works, electromechanical works, waterproofing works, decoration, fit out works and preconstruction engineering services . The company who is managed by qualified engineers, who over a period of twenty-five years acquired extensive experience in the construction industry, has also successfully delivered turn key projects in civil infrastructure, building construction and plants. These attributes have been successfully parlayed into a business that has grown into one of the leading and dynamic companies in UAE, due mostly in part to the attention to detail and high quality of workmanship.

Since the establishment of the company in 2005 the range of work the business now provides has increased to the point whereby we now employ no fewer than 500 staff which include engineers, estimators, administrators, office support, in addition to its workforce of skilled formwork carpenters, steel fixers, concreters, masons, riggers, scaffolders, waterproofing applicators, fabricators, insulators, welders, electromechanical technicians, furniture carpenters, gypsum workers and other skilled laborers. The company boasts a range of skills, ability and experience that is second to none. International Line current medium size ensures that every customer is guaranteed highly personalized and individual attention and service.

International Line Constructions considers its staff and employees as an asset to the establishment, therefore the management is always working on upgrading and updating their knowledge and experience by participating in local and abroad seminars and short courses as well as conducting in house accredited training courses in various subjects

Mission Statement

Our mission is to deliver high-quality, cost-effective projects on schedule by employing and supporting motivated, flexible, and focused teams. We value the importance of our relationships and will continue to remain fair and true in our dealings with all employees, clients, vendors, and partners. Our clients count on our dependability, our drive, and our integrity. We take great pride in our accomplishments and build on them every day.

Our Values

- ✓ Safety is our number one priority.
- ✓ We will provide fair return to our investors.
- ✓ We will meet or exceed specified quality on all jobs.
- ✓ Long-term growth is critical to our business and employees .
- ✓ Loyalty of strategic clients to achieve repeat business is essential.
- ✓ Our management philosophy focuses on a teamwork environment grounded on personal accountabilities.
- ✓ Openness, honesty and respect shall underline our dealings with each other.
- ✓ Continuous improvement is vital to every aspect of our business.
- ✓ Motivated, quality employees are our most important asset.
- ✓ We will understand the risks inherent to our business.
- ✓ All commitments will be honored.

Health Safety & Environment

International Line has a committed OH&S policy, which comprises of in house OH&S representatives and First Aiders and takes safety very seriously, which shows in its unblemished record. Much of this arises from the training that International Line Constructions offers its employees not only in OH&S but all aspects of the construction industry.

The construction of concrete buildings, often hundreds of feet above ground, is some of the most hazardous type work found in the construction industry today. Our number one priority every day is to ensure the safety and health of our employees.

The company's total commitment to safety has paid dividends, to our employees, our customers and or owners. International Line's safety performance has steadily improved. Our performance result is well above the industry average and continues to provide the company with a significant competitive advantage.

Health Safety & Environment Policy

International Line's management and employees are fully committed to provide a healthier and safer environment to all involved, the community and the surroundings in which it operates by minimizing Occupational Health & Safety risks as well as environmental impacts.

In this context our objectives are:

- Promote positive HSE culture through active involvement of all employees and subcontractors and emphasize on preventive techniques;
- Provide safe & healthy environment at the workplace;
- Comply with applicable local laws, legislations, codes of practices and international HSE standards.
- Prevention of pollution, ill health and injury and workplace for all employees, subcontractors and visitors.

It is the company's policy to establish, maintain and continually improve an effective HSE Management System that complies with ISO 14001:2004, OHSAS 18001:2007 standards.

Quality

International Line work in industrial and commercial sector ranges from your basic foundations works through to your more complex multi-story developments and everything in between. Essentially, International Line offers a high standard quality of work in all areas of concreting and finishing works.

The ongoing high and continually rising standards which International Line Constructions, as a company sets itself, ensures us of customer satisfaction. This is our commitment to you as a customer, that your satisfaction is our major priority. We therefore strive to achieve the highest possible standards.

It is our policy to ensure that all projects are executed in accordance with contract specifications and drawings, within the contractual time frame, and in compliance with all legal requirements thus providing good value and satisfaction to our Client.

The Company Management is committed to continuously improve the effectiveness of the quality management system by analyzing customer feedback, conducting internal audits, imparting training where necessary and review of the Quality Management System.

The policy is applicable to all divisions, sites and subcontractors.

Quality Policy

International Line's management and employees are committed to provide value-added quality services and products that fully conform to regulatory as well as client's contractual requirements.

We are aware of the vital role that quality plays in achieving company's corporate objectives to:

- Ensure client satisfaction and improve business relationships;
- Continuously develop and enhance organizational capabilities to retain competitive advantage and efficient operations.

It is the company's policy to establish, maintain and continually improve an effective and efficient Quality Management System that complies with ISO 9001:2008 standards requirements.
